For attn of Tessa Craig;

With regards to the planning application made (ref above) by No4 and No6 Mazenod avenue I am the owner of No2 Mazenod avenue . The proposed plan shows that an extension will be built against the rear of my property, I have concerns that this could cause structural problems. Following a structural engineers report a few years ago, I was informed that the property was moving at about 1 mm a year due to the work carried out at the rear of Quex road which adjoins my property this resulted in my having to underpin the main side wall to slow down this movement. My concern is that the additional weight to the rear of my building could result in the movement speeding up. I would remove my objection if it can be shown that there will be no problems in the future. I am worried that permission will be granted as it was despite my objections when the work was carried out at the rear of Quex road, causing the present problems with the rear of my property.

Regards Mrs Carol Brown.
