2016/0748/P	Tamsin Davies	36 Shoot up hill London NW2 3QB	29/04/2016 16:45:43	OBJEMAIL	I would like to object to this extension on the ground that this extension will affect my enjoyment of our garden. It will block sunlight and make the area feel more built up. We already tolerate the fact that the house is used as a busy nursery and is very noisy in the day and further building upwards and outwards will make our garden feel enclosed and block off precious sunlight. The extension plans look ugly and will not add anything to their surrounding environment except make it feel more built up.
