2015/4407/P	Alastair Baily	20 Shelley Way London SW191TS	29/04/2016 15:39:29	OBJ	The proposed scheme proposes the demolition of an attractive façade on High Holborn and replacing it with something that is horrifically ugly. The existing façade should be retained unless a much better replacement can be designed. In addition, the proposed building is clearly out of scale with the adjoining development and needs to be reduced in height.
