2016/1250/P	Inland Waterways Association	1 Elgin Road London N22 7UE	04/05/2016 21:35:15	OBJ	The Inland Waterways Association objects to this application. We consider that this proposal should not be approved ahead of the Canal and River Trust's London Mooring Strategy. Towpath space along the Regent's Canal and adjacent waterways is heavily oversubscribed with conflicting demands. The allocation of space needs to be made within an overall plan to optimise the share of benefits between all users and maximise income to the Trust which can be spent on improving London's waterways.
