Dear Jagdish Akhaja,

Re: 31 Windmill Street, W1: (on corner with Withfield Street):

Thank you for your email.

From the applicant's email, he says that there will be not "external" extract equipment, but I am not clear if there will still be mechanical equipment **behind** the louvres (or **using** these louvres). If the situation is the same (or similar) to the recent restaurant, then these louvres are genuinely very noisy - this was a point particularly raised by fellow committee members at the time of our comments, but I myself also know how noisy these louvres are from walking pass them fairly regularly during the last year when being used by the recent previous restaurant.

Without further clarification, we would be reluctant to withdraw our objections.
Yours sincerely,

Clive Henderson (m: [REDACTED])
Committee Member [REDACTED]
Charlotte Street Association.
