

1.50 elevation

Refer to drawing P-1123 for oblique fin fencing

Top of new fencing to align with top rail of existing front railings

GATE

RHYL STREET

1. West Fence (gate adjacent to entrance)
1.10 @A3

- 1 Painted steel flats to match existing railings. Welded joints.
- 2 Circular rods to match existing in painted steel with welded joints.
- 3 Square support posts (replicating existing fence posts) in painted steel. Support posts resin anchored to concrete support wall - see item 8.
- 4 Integrated lever handle / latch / lock

- 5 New concrete wall with new strip footing, full width.
- 6 Concrete steps dotted to rear
- 7 New handrail in painted steel flats (dotted as it is to other side of fin fencing)
- 8 Post fixed into end of new concrete wall. Flush head fixings.
- 9 Post fixed into brick pavers
- 10 Painted steel fence with obliquely positioned fins to obscure view from entrance into play area
- 11 Support rail to align with adjacent railings. Depth of rail to be such that it is visible only from this side and not the entrance side.
