

3 Gower Court West First Flr Plant Room Window  
Existing Framework & Louvre Junction Detail (Contractor Proposal)

2 Gower Court West  
Proposed First Flr Plant Room Window Elevation  
SCALE 1:20@A1

**Windows - Plant Room Louvre Panels**

To attain the open area requirements concerning the first floor plant room to the west of Gower Court, it is proposed that cross frames are to be retained yet the sash windows, at this localised position, are to be removed and replaced with louvre panels. The sash windows are to be retained by UCL for future use and to be stored safely and securely in the meantime. This approach has been used elsewhere on the Bloombury Campus, for example at the North Cloister of the Wilkins Building. (Refer to page 34 for locations)
