RE: Planning Application - 2016/1700/P

Site Address

32 Belsize Road London NW6 4RD

Dear Sir or Madam,

I am writing to object to this planning in principal as it will create a join between our houses (which are currently both end-of-terrace) thus making them more like a single terrace.

Secondly, we object to the noise and invasion of our privacy by adding a toilet that backs onto our kitchen wall/dining area. Currently we enjoy the sound insulation of air in the side passage between our house side-walls. We are both busy NHS doctors (John works at UCLH) that continue to work night-shifts and value our time to rest undisturbed, which will undoubtedly be affected should the building works take place.

In addition we received no notice in advance that this planning application was being submitted.

Yours attentively,

Dr John Dick and Dr Laura Price
