

Dear Kate

I am writing to you to register my objection to the proposed works at St Luke's, 20 Flaxman Terrace. My name is Sharon Dawson and i live at Flat 2 Grafton Mansions
Flat 2 is one of the basement flats and as such my access to light, natural light is limited. With the proposed development my flat would receive no light at all. The main benefit of having this basement flat is my access to the garden which i have been taking care of as much as i am able, if this development went ahead it would kill the garden as it would also get no light

Therefore my main objection to this plan is that my health **will** suffer from it

yours sincerely

sharon dawson
