2016/1737/P	Isabel Summerfield	78 lawn rd	09/05/2016 22:27:31	OBJ	<p>I live at 78, and my bedroom looks onto 77's garden. The view in May is a joy, with my bedroom decorated in pink to co-ordinate with the pink blossom that is magnificent. I would be extremely concerned about the tree being moved as it is a real enhancement to my bedroom, and also offers me more privacy.</p> <p>I think the road is very pretty, and it would be a shame for one house to change the look of the street by changing the driveway to go a different way to everybody elses, and to put gates up - we are a very friendly street where we share trampolines across garden fences, and we babysit for each other - building a big fenced off house is not in keeping with the rest of the street.</p>

It would be a shame for 1 house to alter the way the street looks from the front by changing the driveway (impacting no. 76), building gates round the house, and moving our beloved pink blossom tree that looks so lovely hanging into our garden.</p>
