2016/1596/P	Alexis Zegerman	13 Grafton Crescent London nw1 8sl	11/05/2016 10:09:37	OBJNOT	We live directly behind Healey Street on Grafton Crescent. We have major concerns that permission for a mansard roof on this side of Healey Street will set a precedent for the whole terrace, leaving the houses on Grafton Crescent with restricted light and a sense of enclosure/entrapment. There is little distance between the houses on Grafton Crescent and Healey Street, and we ask for what light we have to be protected. We understand that a number of applications for mansard roofs have been submitted for this side of the street, and we urge the council to think wisely about the quality of life and light for those of us who live directly behind Healey Street.
