2016/0873/P	Vivien Marsh	44 Hatton Garden Flat 7 London EC1N 8ER	12/05/2016 10:37:17	COMMNT	It isn't quite clear what's going on here. What are 'rooflights' and will they emit more light than the current installation when viewed from outside ? I ask because we at 44 Hatton Garden have not been included in the list of neighbours to be consulted, but the bedrooms of the odd-numbered flats in our block overlook the site where these works are due to take place. If it's just a case of allowing daylight to enter, that's fine - but the word 'rooflight' can mean several different things, and we wouldn't want extra light pollution in this area during the night. Mentioning this just in case.
