2016/1875/P	David Magliano	11 Buckland Crescent London NW3 5DH	12/05/2016 22:00:17	OBJ	12 Buckland Crescent is part of the Belsize Conservation area and should be decorated to maintain uniformity of appearance. The new deep lilac colour bears no relation to other properties on the street, nor to its previous colour (which can be easily verified using Google Street View, which shows an image from June 2012). In the past, when other properties on Buckland Crescent have contravened the conservation guidelines they have been asked to comply, so to preserve the character of the area (one exception will lead to others), and to ensure all residents are treated equally, the owner should return the exterior to a colour and shade in keeping with other properties.
