2016/1986/P	Ian Perrin	Flat 10 55-57 Holmes Road London NW5 3AN	12/05/2016 21:59:44	OBJ	I would like to object to the construction of a 6 storeys building at 52 Holmes Road which would obstruct the light for resident living 55-57 Holmes Road. Our building is already facing north but is still relatively light before of the low level of the buildings in front. On that ground, the lack of light that will be caused by the proposed construction should be taken into account as having a direct impact to the quality of our lives.
