2015/5296/P	Chris Wright	19 Whitfield Place W1T 5JX	12/05/2016 15:24:34	OBJNOT	<p>What exactly is meant by "plant machinery on rear elevation"?</p> <p>We live in 19 Whitfield Place, so the rear of our property faces the rear of 11 Warren Street, across a narrow patio garden. We already have FIVE air conditioning machines on the rear walls of the Warren St. properties, running continuously, creating both cooking smells and noise. We do not want any more.</p> <p>Kindly explain. If yet another large AC unit is planned, we certainly do wish to register our objection.</p> <p>In addition, why on earth is another small restaurant needed in Warren Street? There is already a great number of them, there and in north Whitfield Street. Surely the area is saturated with eateries and chains (McDonalds, Pret etc.) already?</p>
