

Dear Zenab

I am afraid I could not find the above planning application on your Camden website.

My comments on the planned site are as follows:

- Objection on the grounds of increased traffic. Traffic is already bad and will no doubt become worse with the Swiss Cottage and HS2 rail works
- Reduction of already poor parking
- The school will be situated on an already very busy corner, this road is congested as it is at the moment at peak hours. Downshire Hill is a conservation road.
- There is already too much school traffic in Hampstead- worst hours between 8am and 9am and 3pm and 5.30pm
- More pollution - I have suffered with pollution asthma since moving here 2 years ago and required Doctors visits and medication which all adds to the NHS burden

Please can you include my objections to this application.

Many thanks
Allyson Kaye
