### 5. What Are You Applying For?

Are you seeking consent for works to tree(s) subject to a TPO?  Yes  No

Are you wishing to carry out works to tree(s) in a conservation area?  Yes  No

### 6. Tree Preservation Order Details

If you know which TPO protects the tree(s), enter its title or number below.

### 7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).

Please provide the following information below: tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

To remove HOLLY TREE & Replant with a suitable tree. It has grown unchecked & is choked & competing for space with a lilac tree. A less vigorous, self-fertile cultivar such as Ilex Aquifolium JC Van Tol would be a more handsome alternative, we feel, & more in keeping with St Mary's Church. It has attractive foliage & colourful fruits. These desirable attributes would enhance the area rather than detracting from it with the present ILEX specimen.
