

Wednesday 13
April '16

64, Peverell Park Road,
Plymouth, PL3-4NB

To Rob Tulloch, Esq.

Along with many thousands of musicians, audiences, and petitioners, I'm requesting you to vote NO to a planning application by one adjacent resident, who wants to install an underground "bunker" around and beneath the great AIR recording studio --- the only one that can professionally record large orchestras to the required (Sir George Martin) standard.

The AIR studio was there, and doing great work, long before the new resident moved in --- he did so in full knowledge, of his immediate new neighbours, its activities, and its essential acoustic needs --- already, the petition is 12,450 against him, →

(II)

along with all common sense and decency.

The proposed excavations, and subsequent uses thereof (e.g. driving + parking his fleet of lamborghinis?) will forever ruin the precious acoustic quality of AIR studio, and will surely force it to close, killing the healthy stream of major work by major artists and film makers.

Twelve thousand (and counting) request you to permanently vote NO and refuse this one person's needless indulgence.

It's called DEMOCRACY - which you have chosen to serve - so DO IT !!

Andy Callingham,
professional musician.
