

14 GAINSBOROUGH GARDENS LONDON NW3 1BJ

Tania Skelli-Yaoz
Planning Officer
London Borough of Camden

11th May 2016

Dear Ms Skelli-Yaoz

Planning Application relating to 8 Gainsborough Gardens

I am advised that Ms Ellie Pole of 8 Gainsborough Gardens has applied to the London Borough of Camden for permission to make the changes required to reinstate number 8 as a single dwelling.

It seems to me and many if not all of my neighbours, that to restore number 8 to its original state will improve the look of the house and is consistent with the preservation of number 8, and indeed Gainsborough Gardens as a whole. It is a site of special architectural interest and part of the wider conservation area. Furthermore all the houses in Gainsborough Gardens were built as single household units consisting of 17 single household dwellings. The Gardens and many of the houses are listed Grade II and a restoration of the house into a single dwelling will enhance its Grade II status and complete the restoration of the Gardens to its original plan.

Yours sincerely

Andrew Lavery
