2016/2095/P	Andrew Walker	250 Camden High Street NW1 8QS	18/05/2016 16:42:17	OBJ	<ol style="list-style-type: none"><li>1.The land referred to in this application is a landing jetty used by boats as a temporary mooring and disembarkation point while navigating through the adjacent locks, development would prevent this use. The proposed access path does not provide boat crews, particularly those with disabilities, with adequate safe access.</li><li>2. The proposed structures would provide shelter and concealment for individuals involved in rough sleeping and other ASB during the night. ASB is already of a very high concern in the local vicinity.</li><li>3.The proposed railings are totally out of keeping with the historic nature of the canal at this location as well as impeding boat crews. If installed would visually distract from the historic horse bridge.</li><li>4. The location is adjacent to a very important local historic structure. This horse bridge is of a sweeping design which can only be appreciated from a distance, any structures built in its immediate vicinity will destroy this historic view. The immediate area around tis bridge has always been open land.</li><li>5. Structures built in this location will block and destroy historic views of the canal from the towpath area.</li><li>6. This area is open space currently available to be enjoyed by all, any development would deny this use.</li></ol> <p>This application should be refused</p>
