2016/2116/P	Mrs L J Tanner	Flat E 18 Templewood Avenue London NW3 7XD	18/05/2016 18:31:33	OBJ	<p>We object to the proposed upgrade of this mast and prefer the whole mast to be removed or moved to another area. The waves that these masts produce are not good for our health and could lead to illnesses including cancer. The upgrade can only make the waves being emitted even stronger.</p> <p>Why should the telephone companies be more important than the local residents who could be affected by these masts? The residents are the ones who need to be listened to and we are the ones who pay the rates and taxes in this area.</p>
