#### Informative(s):

- 1 Reason for granting Listed Building Consent:

The proposals seek permission to install secondary glazing to 7no sash windows to reduce the levels of heat loss and traffic noise.

The works will not impact upon existing features of interest internally, are seen as temporary and reversible and as such will not harm the special interest of the building. Secondary glazing is not proposed to windows which retain historic shutters and shutter boxes.

No.37 is grade II listed, within the terrace '18-36 and attached railings' of ten houses which date to c1819-23 and designed by Thomas Cubitt. It is constructed of yellow stock brick with stucco at ground floor of three storeys with basement, it is a symmetrical terrace with a slightly projecting central block of four dwellings. No 37 has a curved headed sash with pointed lights at ground floor and upper floors have 6/6 sashes.

Listed Building Consent and Full Planning Permission have been recently granted to carry out a number of internal and external alterations to the lower and upper maisonettes (2015/6797/L & 2015/5784/P).

No public consultation was necessary for this application and the site's planning history was taken into account when coming to this decision.

Special regard has been attached to the desirability of preserving the listed building

and its features of special architectural or historic interest, under s.16 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

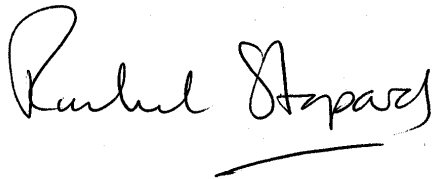

As such, the proposal is in general accordance with policy CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policy DP25 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with policy 7.8 of the London Plan 2015, and paragraphs 14, 17, 56-68 and 126-141 of the National Planning Policy Framework.
