

# Product Data Sheet

## Radmat SedumPlug

**Article number:**

**General information:** Radmat SedumPlug are low maintenance, drought resistant, ready to install sedum plug plants grown in the UK to suit the environment climate.

The range of species provides the opportunity to select plant mixes to achieve a variety of objectives including: extending the flowering season, managing degrees of shade or exposure, orientation and/or indigenous planting requirements.

**Certificates:** n/a

**Installation instructions:** Install by hand into a suitably prepared and irrigated Radmat growing medium at the specified rate per m<sup>2</sup>. Insert so root ball is below the finished growing medium surface. Once installed irrigate for the prescribed period based on season.
