2016/1322/P	Michael Mahoney	57 Parliament Hill Flat 4 London NW3 2TB	22/05/2016 16:28:05	INT	<p>I note with concern the application to install "movable planters" on the roofs of 52 and 54 Parliament Hill. The proposal is effectively the building of a wall that will block views of London from many neighbouring properties. Additionally, one should infer from the nature of this application that the reason for this form of privacy screen is to use the rooftop for parties and entertaining. This will create noise in the area and will affect our quiet and peaceful enjoyment of Parliament Hill.</p> <p>This seems to be an attempt to replace the illegally installed glass railings that were ordered removed by Council.</p> <p>These planters along with the plants that they will contain will eliminate our views over London, a privilege we pay dearly for and from which we derive much enjoyment. I strongly urge Council to refuse the application on the grounds that it will obstruct views, create noise and be otherwise disruptive to a peaceful and quiet community.</p>
