2016/1449/P	Michael Moriarty	295 Euston Road	24/05/2016 13:01:12	OBJ	The proposed extension will block the direct sunlight that my bedroom receives in the afternoons from the south. It will also lower the amount of light overall in the light well. My flat is long and narrow and a majority of rooms in the flat rely on that light well for light. I am therefore opposed to this development unless changes are made to the plans that will not affect the usability of my bedroom and kitchen so drastically.
