2016/2017/P	Zoe Robinson	Flat 6 2 Inglewood Road London NW6 1QZ	19/05/2016 10:34:25	OBJ	<p>I would like to object to this planning application. The decking is very large and extends too far on to the pavement, making it dangerously narrow. The pavement is so narrow that it is difficult to pass oncoming pedestrians, particularly if there is a buggy or wheelchair. It very difficult for two buggies to pass each other. This can make it necessary to step into the road to allow oncoming pedestrians to pass. Traffic passes very close to the kerb on this part of West End Lane and it is often necessary to walk very close to or along the kerb to pass oncoming pedestrians. I have had a couple of near misses where I have narrowly avoided being hit with the wing mirrors of passing vehicles, particularly large vehicles such as buses, as they pass so closely to the pavement here. The current decking is fixed and not retractable or removable in any way, so this problem persists even when the business is closed. These problems are particularly noticeable during the morning rush hour when West End Lane is very busy with road traffic and large numbers of parents with buggies taking their children to school.</p>
