2016/2545/P	Tessa Katzenellenbogen	64a Menelik road	30/05/2016 19:38:51	OBJ	I feel the impact of the new use could set a precedent of overlooking back gardens impacting on their privacy and quiet whereas in the past this has been refused. The use of glass rather than railings does not ensure privacy and quiet. The other similar glass terrace was built without planning and houses opposite do not like being overlooked.
