23 May 2016

Dear Helaina Farthing,

Application Ref: 2016/2136/P 12 May 2016

I am writing regarding the planning application made by the owner of 7 Wavel Mews NW6 3AB.

I am concerned about the proposed development as I live in the garden flat which backs onto the mews houses. Number 7 is next door so any development would most definitely affect me.

As we are in a conservation area I feel it is important to preserve the character of these lovely old mews-houses. By allowing a roof extension this would not only set a president but would be out of keeping with the rest of the mews and would look most odd, not to say very ugly (with modern building materials).

I do have another concern and that is loss of light. The extra height of the building would cast shade on both my garden and living room. The ash tree next door is only in leaf from May to September and doesn't cast that much shade anyway as the owners regularly keep it pruned and one can still see the sky through the leaves. The extension would cast solid shade all year long and its height would dominate the sky line.

Yours sincerely,

Jacqueline Fryer
