2016/2777/P	Paul Evans	Heath Lodge Heathside London NW3 1BL	01/06/2016 14:57:51	SUPPRT	<p>I am writing in strong support of the application to convert 8 Gainsborough Gardens into a single residential dwelling, in the capacity of both a director of Gainsborough Gardens Limited and a Hampstead resident of over twenty years. Ms Pole presented her plans to the board of Gainsborough Gardens Limited, which were unanimously approved. Gainsborough Gardens is an area of special architectural interest, and number 8 itself is a Grade II listed building. The reasons for the listing are:</p> <p>* Special architectural interest for quality of design and materials * Survival of internal decorative features (principally No. 8) * Strong group value with other listed houses in Gainsborough Gardens * Strong contribution to the overall planning interest of Gainsborough Gardens</p> <p>It would therefore be in the best interests of the area's heritage that the house be restored to its former state as a single dwelling, as the application involves reinstating the original staircase and the original double height window.</p>
