Informative(s):

- 1 Reasons for granting listed building consent.

The proposed antennae are considered sufficiently subordinate to the host building by virtue of their size and location. As a result, it is considered that the proposed antennae would preserve the special character and historic interest of Grade II listed building. Any remaining features of historic interest will be retained.

Whilst the development will have some impact on the Grade II listed building, the impact is not considered to be harmful, and the building's special architectural and historic interest will be preserved by the proposals.

No objections have been received. The site's planning history was taken into account when coming to this decision.

Special regard has been attached to the desirability of preserving the listed building and its features of special architectural or historic interest, under s.16 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposed development is in general accordance with policy CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24 and DP25 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with policy 7.8 of the London Plan 2011; and paragraphs 14, 17, 56-66 and 126-141 of the National Planning Policy Framework.

- 2 Your proposals may be subject to control under the Building Regulations and/or the London Buildings Acts which cover aspects including fire and emergency escape, access and facilities for people with disabilities and sound insulation between dwellings.
