Dear Sirs,

Please find attached my Arboricultural Report and accept it as notification of imminent removal of the tree T3 as discussed.

Having inspected the low quality birch tree T3 at the above site with due regard to the high risk of its failure as a result of the necessary reconstruction of the front retaining wall it is our finding that the tree should be removed under a 5 day notice to allow for the safe reconstruction of the wall.

If I do not receive a response from you to state otherwise within 5 days I will accept this as consent for the tree to be removed.

Should you require any further details please don't hesitate to contact me,

Kind regards

Iain Waddell
Arboricultural Consultant
