#### Informatives:

- 1 Reasons for granting permission:

The proposed replacement ATM is considered acceptable in scale and location to the host building and preserves the character of the building and streetscape. It is positioned to be accessible for all users with minimal impact on pedestrian movement due to the width of the pavement.

The proposal will not adversely impact on any neighbouring amenity and is not considered harmful to the character or appearance of the host building, street scene or the Hatton Garden Conservation Area as it is positioned in the same location as the existing ATM.

No objections have been received prior to making this decision. The application planning history of the site has been taken into account when coming to this decision.

Considerable importance and weight has been attached to the harm and special attention has been paid to the desirability of preserving or enhancing the character or appearance of the conservation area, under s.72 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy and policies DP24, DP25 and DP26 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with policies 7.4, 7.6 and 7.8 of the London Plan March 2016; and paragraphs 14, 17, 55 -66 and 126-141 of the National Planning Policy Framework.
