2016/2217/P	Inger Wallis	27 Coptic Street London wcl1a1nt	05/06/2016 19:03:49	OBJ	I object to this application in the strongest possible terms. My kitchen and bedroom windows are only 2metres !!!! yes 2 metres from this site. I already have minimal natural light due to built up nature of our location. This site overlooks 15 homes and is literally surrounded by windows it is totally inappropriate for ANY extension or building work to take place on this tiny location in the heart of social housing development. PLEASE protect us ordinary Londoners in our homes. I invite you to my house to view this location. The plant in situ has been really noisy and changed all our lives...due to echo of flats it sounds like a plane taking off. No building please. All of us tenants object. We are One Housing group tenants.
