2016/2312/P	Michael Storm	22 Ashbourne Ave NW11 0DR	03/06/2016 14:15:01	COMMNT	From the photos online that accompanied this application, there is an even-larger tank five doors away at 74 Parkway. I fail to understand why Camden would object to this particular application when I have not seen the the tanks on the neighbouring buildings have been approved by the council or any enforcement or retrospective planning application for number 74. I therefore fully support this application.
2016/2312/P	MK	84 PARKWAY	02/06/2016 17:05:27	COMMEMP ER	Thgis application should be approved. Camden Council have recently constructed a huge water tank and covered it with ugly white cladding at 27 MORNINGTON CRESCENT,NW1 7RE. This can be seen from the street in Mornington Place and also from Albert Street. This matter was reported to Ms Angela Ryan of Camden Enforcement Team, but she refused to deal with matter as a formal enforcement case, although she was so concerned about the small tank at this property although it cannot be seen from the street.
