Description:

4. Trees Ownership

Is the applicant the owner of the tree(s)?

Yes No

5. What Are You Applying For?

Are you seeking consent for works to a tree(s) subject to a TPO?

Yes No

Are you wishing to carry out works to tree(s) in a conservation area?

Yes No

6. Tree Preservation Order Details

If you know which TPO protects the tree(s) enter its title or number below

7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).

Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

We have five tree in the garden that need removing and are of no horticultural significance.

Two trees are up against the back wall which is falling down and needs replacing, one is dead (think its an old pear) as its been killed by the ivy the other is wrapped in ivy and the wall has fallen on top of it, the roots of both trees have caused the wall to fall down so they ideally need to come out as we need to replace the wall. (See pictures)

The other 3 trees have been strangled by the Ivy and almost dead or dying. There is a lack of light in the garden and this has only made their demise even worse. I'm not familiar with what trees they are but tree surgeons we have used in the past said there not worth keeping.

There is also an over hanging pear tree from next doors garden that protrudes over half the garden we would like to cut this back to the boundary as nothing grows at all below it. There is also a wisteria growing up through this that needs cutting back too.

we are in the process of replanting the garden so are trying to maximise the light in there, there are already lots of mature trees surrounding the garden so we're just trying to give these plants as much hope as possible!

8. Trees - Additional Information

For all trees

A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer.

For works to trees covered by a TPO

Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application must be accompanied by the necessary evidence to support your proposals. (See guidance notes for further details)

1. **Condition of the tree(s)** - e.g. it is diseased or you have fears that it might break or fall:

If YES, you are required to provide written arboricultural advice or other diagnostic information from an appropriate expert.

Yes No

2. **Alleged damage to property** - e.g. subsidence or damage to drains or drives.

If YES, you are required to provide for:

Yes No

Subsidence

A report by an engineer or surveyor, to include a description of damage, vegetation, monitoring data, soil, roots

8. Trees - Additional Information

and repair proposals. Also a report from an arboriculturist to support the tree work proposals.

Other structural damage (e.g. drains, walls and hard surfaces)

Written technical evidence from an appropriate expert, including description of damage and possible solutions.

Documents and plans (for any tree)

Are you providing additional information in support of your application?

Yes No

If Yes, please provide the reference numbers of plans, documents, professional reports, photographs etc in support of your application:
