| 2016/2777/P | Chris Harrowell RIBA | 20 Courthope Road London NW3 2LB | 07/06/2016 22:44:12 | SUPPRT | I fully support this application, having witnessed the poor condition and badly converted state of the property when the present owners originally purchased in in 2006. They have undertaken sensitive internal refurbishment over the years to suit the needs of their growing family and are now proposing to enhance this by reverting the property to a single family house. This includes reinstating the full height window to the original staircase, which significantly improves the external appearance of the house in the original spirit of this unique and historic residential close. I would request that this application is given the approval that it deserves. |
