2016/0083/P	Debbie Radcliffe for BCAAC	91 Judd Street London WC1H 9NE	07/06/2016 18:03:04	COMMNT	We note that the Planning Permission which was granted for 8 Smarts Place in 2004 was for a 2 storey Roof extension [2004/1853/P]. The current application includes an additional storey. The design statement claims the 2004 application "established the broad principles of massing and design" - but three storeys is not two; and however stepped back the top floor, this is still adding extra height to the overall building, increasing density and creating even greater shade for the existing setting.
