2016/2418/P	H. Williams	27 Betterton House Betterton Street London WC2H 9BT	08/06/2016 17:45:46	COMMEM AIL	I am a Leaseholder of a flat in Betterton House, which backs onto the courtyard and overlooks the proposed roof terrace. This is currently a quiet and tranquil area, unlike the front of the building, and the whole nature of the building will be changed if a social space where cooking, music and conversation until late into the night were allowed. By its very nature, the courtyard at the back of these buildings creates a great deal of echo so that any level of extra noise at all will be very noticeable and anti-social for everyone who backs onto this courtyard. I agree with the comments of the other residents in relation to fumes, odour and disturbance to sleep.
