| 2016/2648/P | Dominic Brett | 25 Netherhall Gardens London NW3 5RL | 08/06/2016 19:16:15 | COMMNT | <p>I wish to register my strongest protest. This application fails to provide any reasonable guarantees as to the risk of subsidence to our property next door. Nor does it appear to address adequately the integrity of the root base of the substantial tree that is growing in Number 23, any damage to which could have serious implications for us at Number 25.</p> <p>In addition, we have been subjected to a barrage of planning applications of late - from number 27 opposite, the hotel in Frognaal behind us and now this. The works include a basement and will necessarily entail substantial digging works, noise and disruption.</p> |
