Informative(s):

- 1 Reason for granting advert consent:

The proposed externally illuminated fascia signs are considered to be acceptable in terms of its location, size, materials, design and method of illumination.

The proposal would not harm the setting of the host and adjacent listed buildings or the appearance and character of the streetscape and the conservation area. A separate listed building consent has been submitted under 2015/3035/L.

The proposal would not significantly impact on the neighbouring residential amenity nor would it be harmful to either pedestrian or vehicular safety due to the level of illumination proposed which is acceptable in this location.

The site's planning and appeal history has been taken into account when coming to this decision.

Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the conservation area and special regard has been attached to the desirability of preserving the listed building or its setting or any features of special architectural or historic interest which it possesses, under s.66 and s.72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24, DP25 and DP26 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with policies 7.4, 7.6 and 7.8 of the London Plan 2016; and paragraphs 14, 17, 56 -67, 126 -141 of the National Planning Policy Framework.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraphs 186 and 187 of the National Planning Policy Framework.
