2016/0665/P	Fiona O'Mahony	34 bernard shaw court St. Pancras Way London NW1 9NG NW1 9NG	09/06/2016 21:57:23	COMMNT	I would always support protecting and retaining green space and trees, however in this instance, I support Gospel Oak School's planning application. As an additional consideration I would like to request the guarantee that as much of the existing grass and trees/shrubs as possible being replaced and/or replanted within the school grounds or local vicinity. The proposed buildings will, in my opinion, have a positive impact on the local children attending the school, and accessing the building. I would support any additional policies and schemes to reduce overall air pollution in this area. On balance, the planning application will in my opinion, provide more benefit than harm to our local community.
