2016/1479/P	Sir Colin Blakemore	Professor Sir Colin Blakemore 55B Albany Street London NW1 4BT	12/06/2016 01:31:29	OBJCOMP AP	<p>Dear Ms Phillips,</p> <p>I have prepared a document with illustrations, which I wish to register as an objection to this planning application. It can be downloaded from this link: <a href="https://we.tl/FFDUqQUYSU">https://we.tl/FFDUqQUYSU</a></p> <p>I should be grateful if you would let me know whether you are able to download it. If you have any difficulty, I can mail a printed copy, or can send it via Dropbox.</p> <p>Many thanks,</p> <p>Colin Blakemore</p>
2016/1479/P	J and C Milner	65C Albany St LONDON NW1 4BT	12/06/2016 15:02:02	OBJ	<p>Sir/ Madam</p> <p>As residents of 65C Albany St, we object strongly to this planning application. The creation of the garden will be a disaster for the area as it will significantly narrow the public highway of Chester Gate, causing increased congestion in an area already suffering from excessive traffic. Road users on Albany St will find it harder to enter Chester gate, traffic would consequently back-up down Albany Street, air pollution and noise would rise, and maneuvering of vehicles (including those of the Council itself) would become hazardous and dangerous, and would potentially cause serious harm especially to the thousands of pedestrians, cyclists and joggers who use Chester Gate on a daily basis.</p> <p>Rarely has a single scheme been presented to you that offers absolutely no benefit for the general community and residents whilst bringing enjoyment only to one self interested household. It should be rejected.</p> <p>Yours truly,</p> <p>Julian and Catherine Milner</p>

2016/1479/P	MRS A GOUWS	24 Chester Terrace Regents Park NW1 4ND	12/06/2016 21:49:34	COMMNT	<p>Our objections are: The park is planning two main projects at the moment: -super cycle highway - reinstating of gardens at Chester Gate.</p> <p>if both theses go ahead we will have problems with traffic and around the Chester Terrace area. Chester Terrace will be used as a 'cut through' . it is impossible to agree on both changes and therefore we strongly object to any changes at Chester Gate. I have read all further documentations and objections and we fully support them.</p>
