2016/2312/P	RONALD	100 PPA	10/06/2016 16:46:27	COMMNT	There is a huge water tank above the prominent listed building, 'THE WORLDS END' 174 Camden High Street, which is visible from parkway and from Camden High Street. If this is acceptable , then surely the water tank at 84 Parkway should be acceptable, and Council officers should not hound owners for petty things

2016/2312/P	Judith	456a bury rd	10/06/2016 19:18:00	COMMNT	What a bunch of hypocrites you lot at camden planning department are.you make such a fuss about a water tank enclosure at this property, yet you seem to be very happy about a water tank on a nearby listed building at 101 Arlington Rd. This Application should definitely be approved.

2016/2418/P	Gary COX	Flat 2 33 Betterton St WC2H 9BQ	10/06/2016 11:10:19	COMMNT	The proposed roof terrace to the rear of 33 Betterton St would impact not only the privacy of Flat 1, 33 and other flats backing on to this area (Endell St and Shelton St) but create noise issues for surrounding residents. During summer where ventilation of bedrooms is absolutely essential due to lack of air conditioning, there would be a direct affect from noise created on the terrace disturbing residents sleep. Disruption from the continuing building works of the ground floor have had a considerable impact on all residents of 33 Betterton St and appears to be running over schedule with work not projected to finish until 2017. We strongly urge Camden planning to refuse this application in view of the objections by residents who would be directly impacted by this proposal.
