NORTH

The RPA of Pine (T1) has been adjusted to take into account the raised rockery / bed it is growing within

Two new standard sized Silver Birches will be planted along the northern edge of the rear garden to mitigate the loss of T3 & T4

A 'no-dig' construction will be used to provide long-term protection for the roots of T5, T6, T7 & T8.

Ground protection will be used during the construction phase
