Redvision™

RVX28-IR RVX28-IR-W(wiper)

All X-SERIES cameras can be configured as either conventional Domes or Ball type Pan & Tilts. Cameras are supplied as Domes, but can easily be transformed to Pan & Tilts by removing the Dome Top Cover.
In-built IR provides up to 100 metres illumination at Zero Lux. Wiper options available.
Dome Configuration.
X-series domes all have flat toughened glass windows providing superior optics compared to plastic Domes. Unlike conventional Domes the X-series Cameras can see above the horizon without the video picture being clipped by the Dome top.

Ball PTZ Configuration.
X-Series Ball PTZ can be inverted and tower mounted. This mounting option provides full 360° vision.
