Dear Ms Hazleton,

Thanks for your email below.

In fact the applicants new consultants (whom we know) contacted us and sent the revised scheme – CGI's & drawings. These are vastly improved and accord with the recommendations for greening in the *Seven Dials Study* so we withdraw our objection.

The hanging baskets seem rather impractical, but that's their choice! It is gratifying to see a positive response to what we hope were constructive comments from the Trust, the CGCA and Shaftesbury PLC for this prominent building within the CA.

Are you aware of the *Seven Dials Study*? We are working on a new web edition which we hope will be useful for Camden officers and others.
