Dear Sirs,

Planning Application - New London Theatre, Parker Street, London WC2B 5PW – New Rooftop Chillers

We act on behalf of Really Useful Theatre Group, the owners of the above building. We are writing to submit a planning application in respect of the following:

Installation of new Chillers in an acoustic enclosure onto of the existing Plantroom Roof.

Please find enclosed the completed application including the following:

- Cheque in the sum of £385.00 payable to London Borough of Camden
- 4 No. copies of the completed Town and Country Planning Act 1990 forms, duly signed where stated – including the completed Ownership Certificate.
- 4 No. copies of each of the drawings as listed on the attached drawing issue sheet.
- 4 No. Copies of the Design & Access Statement.
- 4 No. Copies of Photographs PH01 – PH04.

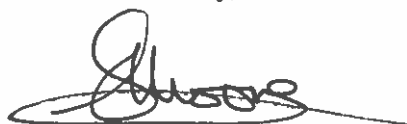

This is a new application following the redesign of the previously proposed acoustic enclosure that was submitted in February 2015 for the new chiller installation on the roof. I have enclosed a copy of the Camden Planning Consent previously granted, with this application.

This application is for a reduced acoustic enclosure in terms of both height and footprint.

I would be grateful if you could telephone me directly on 020 7633 0752 should you require any further information prior to registration of this application.

Please do not hesitate to contact the undersigned should you require any additional information.
Preclude

Yours faithfully,

Mr S Moore

Enc: As indicated above
