2016/2715/P	Marion Andrew	Ground floor 27 Prince of Wales Road London NW5 3LH	13/06/2016 11:49:19	NBJNOT	Work on this property has been going on for two and a half years now as a result of indecision of the owners about whether they want a family home (as indicated in their original application in 2013) or not. A whole estate of homes could have been built in that time. We are tired of the noise, dirt and general disruption and just want them to decide what they want, get on with it, and go, preferably without causing further damage to our property or further restriction of our light.
