I am a neighbour in Gainsborough Gardens and can see that this house has been carefully and sensitively restored by the owners who are artists so I feel confident that they will continue to make sound decisions. Number 8 is the final property in the gardens to be brought into being a listed building (other than Wellside whose exclusion is bewildering). The completion of this as a single family unit would undo some of the shoddy, makeshift work that was allowed to happen before the current owners brought the home back to its original grand state. Please give this favourable consideration.
