2016/2312/P	C Morrison	Coleridge Road N8 8EH	15/06/2016 14:51:48	COMMNT	<p>I am lodging an objection to the water tank on the roof of no.84 Parkway, as it obscures an unbroken view of the rooftops between Gloucester Crescent and Arlington Road / Albert Street due to it's excessive height and size.</p> <p>The tank has a height of approximately 5ft and it covers at least half the width of the roof. If allowed it will set a precedent for similar additions to the roof heights, which would be worrying.</p> <p>Given modern plumbing advances a water tank of this type should not even be necessary.</p> <p>I speak on behalf of several members of Albert Road and Gloucester Crescent.</p>
